[1] Koenig von Portugal 10<sup>th</sup> Aug<sup>t</sup> 1841

D<sup>r</sup> Ure Professor of Chemistry, F. R. S. Member of the Geological & Astronomical Societies of London Consulting Chemist to the British Government, &c<sup>t</sup> presents his most respectful Compliments to Herr August Wilhelm von Schlegel. Having heard at the British Ambassador's table where he dined a few days ago, that the justly celebrated and much admired interpreter of Shakspeare's plays, and investigator of his genius, is now in Berlin, the D<sup>r</sup> has [2] taken the liberty of soliciting permission to pay his personal homage to a poet, and philosopher who is dear to every Englishman. D<sup>r</sup> Ure is here for only a few days to visit his scientific friends, and will be happy to wait upon M<sup>r</sup> Schlegel at any hour tomorrow which he may be pleased to indicate - He carries with him, as the best Companion of his journey in Germany, the 9<sup>th</sup> volume of the German Shakspeare - Many of D<sup>r</sup> Ure's works are translated into German, and one of them his Dictionary of Chemistry - [3] by two different translators - Geheimer rath Brandes of Hannover, and D<sup>r</sup> Froriep of Weimar -

An answer will oblige -
